

Roles & Access Credentials Directory

Complete reference guide for all multi-tenant roles, verified login credentials, target workspace routes, and developer 1-click authentication shortcuts.

ENTERPRISE PERSONAS

6 Roles

Strict RBAC separation

ACTIVE SEED ACCOUNTS

17 Users

Pre-seeded in MongoDB

MULTI-TENANT ORGS

6 Tenants

B2B & B2C isolated partitions

AUTHENTICATION MODE

Dual Auth

PBKDF2-HMAC + HMAC-SHA256

Unified Login Gateway: Authenticate with any username or email address below. Both form submission and JSON API authentication are supported on the same endpoint.

http://127.0.0.1:8000/app/login

1. Super Administrator

/app/admin

1-Click Bypass: /app/switch-admin

Global platform operator with supreme authority across all organizations. Manages global tenant quotas, multi-tenant billing status, platform health telemetry, AI model registries (2D-CNN & GTM AudioSet), and system audit logs.

USERNAME	EMAIL ADDRESS	PASSWORD	ORGANIZATION / TENANT	STATUS
admin	admin@sonicsentinel.ai	admin123	Dectus HQ (platform_global)	Active · Superuser

2. Tenant / Company Administrators

/app/company

Direct Route: /app/company

Organizational administrators managing tenant facilities, microphone sensor deployments, custom alert sensitivity threshold sliders, acoustic zones, team member role provisioning, and Stripe B2B subscription billing.

USERNAME	EMAIL ADDRESS	PASSWORD	ORGANIZATION / TENANT	PLAN TIER
company_indus	company@indus.com	company123	Indus Heavy Industries (Industrial)	Creator Plan
company_apex	elena.vance@apexlogistics.com	company123	Apex Global Logistics (Port Warehousing)	Creator Plan
company_admin	company.admin@detectra.ai	company123	Detectra AI Global HQ (Enterprise)	Enterprise Pro

3. Security Operators (Tactical SOC)

</app/security>

[1-Click Bypass: /app/switch-security](/app/switch-security)

Tactical Security Operations Center (SOC) personnel. Real-time tactical acoustic threat radar, instant audio alert buzzer on high-severity events (Gunshot, Panic Scream, Violence/Aggression, Glass Break), and 1-click police/guard dispatch.

USERNAME	EMAIL ADDRESS	PASSWORD	ASSIGNED SOC ORGANIZATION	CLEARANCE
security_metro	security@metro.gov	guard123	Metro Transit Authority	Level 3 (Tactical Threat Response)
marcus.reed	marcus.reed@apexlogistics.com	password123	Apex Global Logistics	Level 2 (Facility Perimeter)

4. Maintenance Operators (Plant Engineering)

/app/maintenance

1-Click Bypass: </app/switch-maintenance>

Industrial machine reliability technicians and plant engineers. Monitors mechanical vibration audio spectrograms, bearing wear degradation trendlines, acoustic fault frequencies, and automated maintenance work orders.

USERNAME	EMAIL ADDRESS	PASSWORD	ASSIGNED PLANT / DIVISION	MONITORING SECTOR
<code>maintenance_indus</code>	<code>maintenance@indus.com</code>	<code>engineer123</code>	Indus Heavy Industries	Turbines, Compressors & Motor Bearings
<code>tariq.mahmood</code>	<code>tariq.mahmood@apexlogistics.com</code>	<code>password123</code>	Apex Global Logistics	Conveyor Belts & Sorting Hydraulics

5. Forensic Audio Reviewers (QA & Adjudication)

/app/reviewer

1-Click Bypass: </app/switch-reviewer>

Human-in-the-loop acoustic forensic analysts. Adjudicates dual-AI model discrepancies (Python CNN ≠ GTM AudioSet), manages the 3-column drag-and-drop triage Kanban board, analyzes spectral audio waveforms, and issues audit-grade verdicts.

USERNAME	EMAIL ADDRESS	PASSWORD	FORENSIC DIVISION	SPECIALIZATION
<code>reviewer_hq</code>	<code>reviewer@sonicsentinel.ai</code>	<code>reviewer123</code>	Dectus HQ (Global QA)	Dual-AI Model Consensus Adjudication
<code>audio_reviewer</code>	<code>reviewer@detectra.ai</code>	<code>reviewer123</code>	Detectra AI Global HQ	Acoustic Signal Degradation & Noise QA
<code>dr.sarah.chen</code>	<code>sarah.chen@apexlogistics.com</code>	<code>password123</code>	Apex Global Logistics	Port Acoustic Perimeter Forensics

6. Residents & Normal Users (B2C / Public)

/app/user

1-Click Bypass: /app/switch-user

Individual home residents, building occupants, or field employees. Accesses personal audio file upload analyzer, live microphone testing sandbox, ambient decibel monitoring, and personal SOS emergency help trigger.

USERNAME	EMAIL ADDRESS	PASSWORD	SUBSCRIPTION TIER	TENANT CONTEXT
resident_city	resident@city.org	user123	Creator (\$49/mo)	b2c_residents (Individual)
resident	resident@detectra.ai	user123	Community Tier	b2c_residents (Individual)
david_thorne	d.thorne@metrohome.io	user123	Pro (\$99/mo)	b2c_residents (Individual)
hannah_abbott	hannah.abbott@oakridge.org	user123	Starter (\$19/mo)	b2c_residents (Individual)
carlos_mendez	cmendez@harborview.net	user123	Creator (\$49/mo)	b2c_residents (Individual)
david.kim	david.kim@apexlogistics.com	password123	Enterprise Employee	Apex Logistics Tenant
amina.patel	amina.patel@apexlogistics.com	password123	Enterprise Employee	Apex Logistics Tenant

Role-Based Access Control (RBAC) Permission Matrix

The table below outlines the operational boundaries and feature entitlements enforced across the 6 platform personas.

Subsystem Feature / Capability	Super Admin	Tenant Admin	Security SOC	Maintenance	Reviewer QA	Resident / User
Global Multi-Tenant Administration	✓	✗	✗	✗	✗	✗
Tenant Sensor & Zone Provisioning	✓	✓	✗	✗	✗	✗
Tactical Threat Radar & Buzzer	✓	✓	✓	✗	✗	✗
Industrial Bearing Wear & Machinery Telemetry	✓	✓	✗	✓	✗	✗
Drag-and-Drop Kanban Triage Board	✓	✗	✗	✗	✓	✗
Dual-AI Adjudication & Verdict Override	✓	✗	✗	✗	✓	✗
Manual Audio Upload & Waveform Analyzer	✓	✓	✓	✓	✓	✓
Live Microphone Detection Sandbox	✓	✓	✓	✓	✓	✓
B2B Stripe Billing & Invoices	✓	✓	✗	✗	✗	✗
Compliance Audit Trail Logs Export	✓	✓	✓	✓	✓	✗

Security & Cryptographic Storage Architecture: All user passwords listed in this directory are securely hashed in the MongoDB users collection using PBKDF2-HMAC with salt. Successful authentication issues an encrypted, signed HMAC-SHA256 session token stored in an HttpOnly, SameSite=Lax browser cookie (portal_session), preventing XSS token exfiltration while allowing seamless cross-page navigation.
